

Project Design Phase-I - Solution Fit Template

Date	12/03/2026
Team ID	SWUID20264931
Project Name	Electric vehicle Charge and Range
Maximum Marks	

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) CS Who is your primary? (a. working parents 30-45 y.o. kids)	6. CUSTOMER CONSTRAINTS CC What constraints prevent our customers from taking action or limit their choices? (a. Limited charging stations b. Slow charging speed c. Lack of real-time availability d. Concerns about the distance range)	5. AVAILABLE SOLUTIONS AS Which solutions are available to these customers when they face the problem? (a. remote in-car charging? What have they tried in the past? What pain is it? What solutions have they seen, and paper is an alternative to digital monitoring)	Explore AS, differentiate
	2. JOBS-TO-BE-DONE / PROBLEMS J&P What jobs need to be prioritized, to you address for your customers? That could be now that helps explore different ideas. a. Monitor EV charging status in real-time b. Estimate remaining range accurately the rather level c. Manage charging sessions efficiently d. Receive alerts when the charging is complete or when battery is low	9. PROBLEM ROOT CAUSE RC What is the real reason that this problem exists? What is the back story behind the need-time message? (a. sometimes need to do it because of the change in regulations)	7. BEHAVIOUR BE How does your audience do to address the problem and get the job done? (a. SC 30 mins weekly, you exempted access paid for later customer charge and benefit. Differently impacted customers, parent that time say concerning with QA customer)	
Identify AS, fit into TR & EM	3. TRIGGERS TR What triggers customers to act? (a. using that neighbourhood including take, parent, receiving status the are different solution to the need)	10. YOUR SOLUTION SL (a. Take the real customer feedback, write down your current solution first. Fit to the solution, and develop it in ready to this results. The following after the solution comes it hard the been being 4. B. ask with you (B) in the current sign in and proceed to solution that the other customer limitations, solve a problem and the other customer ask advice)	10. CHANNELS of BEHAVIOUR CH A. OFFLINE (a. 1. through customers do customers take offline? Extract offline channels from #7)	Identify AS, fit into TR & EM
	4. EMOTIONS: BEFORE / AFTER EM What emotions customers to when they are performing a job? What motivates them to use the solution? (a. Result anxiety the nearly level drop to 20%. b. Focus at status after is current of the charge c. Benefit knowing exact range after charging clearly d. Confident and in control with a reliable plan for alert)		10. YOUR SOLUTION (a. In response to the customer feedback, write down your current solution first. Fit to the solution, and develop it in ready to this results. The following after the solution comes it hard the been being 4. B. ask with you (B) in the current sign in and proceed to solution that the other customer limitations, solve a problem and the other customer ask advice)
